# OUR MISSION

Women in Engineering Christchurch (WiE Christchurch) was first established in 2023 by Emily Sopers. WiE Christchurch was created to help bring women within the engineering industry together and build a sense of community. Our events create an opportunity for people to network, share knowledge and make life long professional relationships. We hope that by building a community, we can take a step forward to increasing our retention of women within the industry. Over the last year we have been fortunate enough to grow our community thanks to our sponsors. Each of our events have been fully sold out and as we look to the new year we would like to expand them. In order to expand them we need your help.

# OUR EVENTS

Women in Engineering Christchurch holds a range of social and industry focused events throughout the year. For 2024, we plan to hold at least one event each quarter. Here is a snapshot of what we have in store.

- Sustainability Sparks
- Career Planning
- Leadership
- Business
- Entrepreneurship
- Wellbeing
- Christmas Bash
- Mentoring
